Let's Dive into RippleMatch

Takeaway #1: Is your matching criteria correct?

Click on "Edit Role"

Look at your current criteria and speak with your CSM to validate you have the correct candidates in your qualified and unqualified sections.

Roles	Events	Analytics	Communities	Search	≥ ₹
Information Te	chnologi	es Specialis	t 🖸 👂 New York, NY 🔹 Public	Links 🤣 E	dit 💉 …

Takeaway #2: Know your filters

Creativity and a Little Critical Thinking Goes a Long Way

Source

EEO Filters

Filters at your disposal

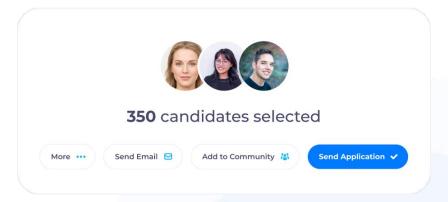

- Education
- Graduation Date
- Applied Date
- Previous Experience Location

Filters	Clear Filters 👌

Takeaway #3: Take advantage of bulk actions

These work with your filters

Use your filters and then leverage bulk actions to either disposition or move those candidates to the next step of your process.

Takeaway #4: Examine your philosophy for rejecting candidates

Consider a first round knockout stage

For example, assessments could help narrow down your pool even further if you're dealing with a large applicant volume.
